

REMARKS

Applicant has received a "Notice of Drawing Inconsistency with Specification" dated August 15, 2007. Applicant has reviewed the drawings and specifications and concluded that the "Brief Description of the Drawings" section of the specification inadvertently omitted reference to Figures 19A and 19B. Figures 19A and 19B were, however, filed with the application on August 3, 2000 and are expressly referenced in the body of the specification. Patent Owner is filing this paper to correct the specification by expressly referencing Figures 19A and 19B in the "Brief Description of the Drawings" section of the specification. No new matter has been added. Applicant respectfully requests that the undersigned be contacted if additional information or action is required to correct the deficiency stated in the "Notice of Drawing Inconsistency with Specification."
